"LIBERTY LIGHT"

To Commemorate the Underground Railroad

Xenia Gazette.

Xenia, as one of the most famous stations on the old "underground railroad," by which slaves were helped to escape from the South before and during the war, should be interested in a commemoration of the underground railroad which is being made at Ripley, Ohio.

A light is to be kept burning constantly in the narrow window of John Rankin's home in that city, just as it was in former days, as a beacon of freedom, the last station on the underground railroad, to the fleeing slave. It has been suggested that Xenia provide some similar token of her part in the good work.

A slight rise is expected at headwaters, but the effect will scarcely be perceptible here.

The Stanley's engines will be installed on the Greenleaf as soon as low water sets in.

The freight movements to upriver points have been very good during the past week. All the packets are expecting a heavy freight business all along the river as soon as the mud on the country landings dries up.

Roosters on the Steel City demanded \$60 per month at Cincinnati and because they were run off of the boat, threw stones and chunks of coal at the six men that remained. The "Steel City" mate fired a pistol into the gang that scattered them in all directions. Nobody was killed or seriously injured.

CHILD WAS SICKLY

Mother Says, "I Think Vinol Saved Her Life"

Parents are wise in trying to break up children coughs quickly, but they are not always as wise as this mother in the means they adopt. Mrs. Willis Van Iowen of Bloomingburg, N. Y., says "My small girl had bronchitis all winter till the doctor said it was chronic and we were afraid we would lose her. I commenced giving her Vinol three times a day and now she is growing fine. I think Vinol saved her life."

Children like to take our delicious tonic, Vinol, because it is pleasant. And it is much better for them than so-called "cough medicines" for they have no strengthening power, while Vinol builds up the body and makes the blood rich. Give Vinol to your delicate run-down children (and take it yourself if you are not as strong as you should be) and you will be delighted with the results. If you are not we give back your money. IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet requisite, is delicately perfumed, and will not gum or permanently stain the hair.

I want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell me, and without question or formality I will hand back to you every penny you paid me for it. Two sizes, 50c., and \$1. Sold only at my store—The Rexall Store. Thos. J. Chenoweth, corner of Second and Sutton streets.

WHICH IS BETTER—TRY AN EXPERIMENT OR PROFIT BY A MAYSVILLE CITIZEN'S EXPERIENCE

Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of merit.

But the endorsement of friends is. Now supposing you had a bad back, A lame, weak, or aching one, Would you experiment on it? You will read of so many so called cures. Endorsed by strangers from far-away places.

It's different when the endorsement comes from home. Easy to prove local testimony.

Read this case: Henry Gallestein, blacksmith, Poplar street, Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equaled this. When my kidneys were out of order I had pain in my back, I heard of Doan's Kidney Pills and used them. They entirely stopped the pains and my kidneys became strong. The relief has been permanent."

We Want to Say a Word in Regard to Our Method of Doing Business

We have been asked many times the secret of our success, growing, as we have, to be Maysville's Foremost Clothiers in so short a time, and the reason is one which we so often say: "Absolute Satisfaction or Your Money Back." Many other reasons enter into our success, selling always the latest style, perfect fitting garments at right prices. THE INJUSTICE

Of the Proposed Raise of the Assessment of Mason County For 1912 By the State Board of Equalization

This is the time of the year when the various counties of this state are being notified by the State Board of Equalization that their assessments are being raised from 5% to 30%.

Up to 1903 the basis of Mason county's assessment, for state and county taxation, was placed by the State Board of Equalization at \$10,500,000. In that year the State Board of Equalization was convinced by the arguments of the Committee that represented Mason county that a reduction in the basis of taxation was necessary, and said Board thereupon reduced Mason county's basis to \$9,500,000, a reduction never having been heard of before, and a few acts of this kind in the history of the Board.

This \$9,500,000 has been the basis of Mason county's taxation up to the year of 1910. In 1910 and 1911, the Board arbitrarily raised Mason county's assessment 10%, there being no excuse for the act but one, viz.: "they had to have the money." A glance at the summary of Mason county's assessments from 1905 up to and including 1912, as prepared by the County Clerk's office from the Assessor's returns will show how well our local Assessors have been doing their duty, as Mason county's assessment is now one-half million greater than the basis of \$9,500,000, under which we have been acting. Attached hereto will be found some figures which may be of interest to the taxpayers of Mason county.

Letters recently received from M. E. Myers, Morrison, Tenn., and Ada Hamersmith, 118 W. Chestnut St., Louisville, Ky., are but a few of thousands showing the esteem in which Dr. Caldwell's Syrup Pepsin is held. It is mild, gentle, non-gripping—not violent, like salts or cathartics. It cures gradually and pleasantly so that in time nature again does its own work without outside aid. Constipated people owe it to themselves to use this grand bowel specific.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply sending W. B. Caldwell, 495 Monticello, Ill., on a postal card.

Prejudice is a hard thing to overcome, but where there is at stake the opinion of thousands of reliable people suffers from yours, prejudice then becomes your menace and you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention.

In the opinion of legions of reliable American people the most stubborn constipation imaginable can be cured by a brief use of Dr. Caldwell's Syrup Pepsin. You may not have heard of it before, but do not doubt its merits on that account, or because it has not been blatantly advertised. It has sold very successfully on word of mouth recommendation. Parents are giving it to their children today who were given it by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Gorever Will Hold the Bodies of Titanic Disaster, Expert Declares

BALTIMORE, Md., April 18th.—"The bodies of the victims of the Titanic are at the bottom of the deep never to leave it," declared Prof. Robert W. Wood of the chair of experimental physics of Johns Hopkins University today.

"It is altogether improbable that any of the corpses will ever return to the surface, as is the case with bodies drowned in shallow water. At the depth of two miles the pressure of the water is something like 6,000 pounds to the square inch, which is far too great to be overcome by buoyancy ordinarily given drowned bodies by the gases generated in time."

EYE-GLASS SPECIALISTS

There are very few people who do an exclusive eye-glass business. Most people who sell glasses give their time and attention to some other calling and only fit glasses when they have nothing else to do. We have no side lines. We do nothing but examine eyes for errors of refraction and make good glasses to correct any error that can be corrected with glasses. If we tried to do a dozen different things we couldn't learn any one of them thoroughly.
